

4<sup>th</sup> November  
CET 9.30 – 12.45  
VIRTUAL

This training session is organised for future applicants interested in TransNational Access (TNA) to EASI-Genomics sequencing facilities, for current TNA users, as well as for interested members of the facilities. It is the event to learn more about the Ethical, Legal and Data Management procedures operated by the Infrastructure in the selection and implementation of projects submitted to EASI-Genomics calls, and to raise awareness on specific topics of ethical, legal and social importance in genomic science. Participation in this half-day event will facilitate the preparation of proposal submissions to future applicants, and the understanding and compliance with established procedures to selected users, once the project is implemented. For all, it is a unique occasion to update knowledge and to debate about current ethical issues in the field with experts.

## ELSI DAY

### SESSION 1

9.30 - 10.15

#### **Ethics check procedures in EASI-Genomics**

Gauthier CHASSANG, Lawyer, CERPOP, INSERM, Université de Toulouse

### SESSION 2

10.15 - 11.00

#### **FAIR data reposition: ENA/EGA procedures**

Aina JENE, CRG Barcelona, EGA team

Dr Gabriele RINCK, Data Coordination Officer, ENA, EMBL-EBI Hinxton

Break

### SESSION 3

11.15 - 12.00

#### **Application of the Nagoya protocol**

Micaël ALIOUAT, Lawyer, INRAE legal department, ABS team

### SESSION 4

12.00 - 12.45

#### **Ethical issues of Genomes Editing**

Dr Anne CAMBON-THOMSEN, Emeritus director of research CNRS, CERPOP, INSERM, Université de Toulouse, Member of the European Group on Ethics
